

## Ergonomic Lifting Equipment Since 1940

### Manual Pallet Truck Panther Silent

*Silent movement  
Also for outdoor transportation !*

Lift and transport your items in an easy, efficient and ergonomically correct way! Due to the specially designed wheels, you can move heavy pallets effortlessly with our Panther Silent pallet truck. Indoor and outdoor. Nothing sticks to or blocks the wheels - not metallic chips, small stones or snow! In addition, the special wheels ensure noise-free transportation - you can simply move around in silent.

### Electric Highlifter

*Quality at working height*

With a highlifter you are always ensured correct ergonomic working height, when you transport, lift and handle elements of pallets. We guarantee high quality through an extended test programme and in cooperation with experts in Health and Safety.

### Fully Powered Logiflex Mini

*Light, flexible and safe!*

The design puts focus on the users safety and ergonomic working conditions. Logiflex Mini can be adjusted to the individual user, and the ergonomic correct handle ensures a relaxed hold. The low overall height gives optimum view conditions. In addition, the elegant design with rounded corners reduces risks of damaging the surroundings.

### Weighing Scale Pallet Truck, WSP 2200

*Time-savings with weighing  
scale pallet truck*

The weighing scale pallet truck, WSP 2200, can transport and weigh goods in the same work process. No need for spending time for extra transport and loading! With the very high accuracy, it is perfectly suited for weighing goods in storage areas, for inspection of incoming goods and goods to be shipped etc.

## Battery Operated Lifters (ATEX Approved)

▶ REELS

With the right equipment you can handle almost all types of reels: large and small, short and long.

**FUNCTIONALITY**  
We provide a wide range of equipment: from simple handling of the reels with a boom or V-block over more specialised equipment, which grips the roll in its core and rotates it. We furthermore provide equipment that grips the reel from the outside and turns it around, manually or electrically.

▶ BOXES

**FUNCTIONALITY**  
A lifter is often a good solution when you need to pack, move, store and distribute. We provide lifters equipped with platforms, forks, grippers and equipment that turn and tip boxes.

▶ DRUMS

**FUNCTIONALITY**  
Hovmand lifters can grip, lift and tip almost any kind of container, i.e. drum, pot, kettle or vat. They can be taken from the floor and lifted. The grippers can be designed to handle difficult and complex shapes as well as containers made of different materials such as steel, plastic and cardboard.
